

Dear Partners,

This year Edushape is celebrating its 40th anniversary and 25 years of the Original Sensory Ball!

Founded in 1983, we have always aspired to build a business that will last for generations. As we are celebrating this important milestone, I'd like to start by acknowledging all the Partners, Employees, and Families who have been part of the journey. Edushape wouldn't be the business it is today without your trust, collaboration, and passion for child development.

As we reflect on the last 40 years, we are proud of the work we have accomplished. Since day 1, we have aspired to help children develop to their full potential through play. Enhancing child development through quality, fun educational toys has always been in our DNA. This year we are recommitting to pursue that mission with renewed vigor and creativity.

- We are updating our brand tagline to reflect our focus on child development. We will now proudly state that we've been "Shaping child development since 1983".
- We are introducing a Sensory Play category to emphasize our passion about all things Sensory. We also revised clustering of our products to be by product category, which should make portfolio navigation easier and our products even more clear.
- We are introducing new colors and animated characters - a Boho Chic collection, updated primary colors, and a family of characters with unique personalities. These changes will make Edushape even more relevant to parents worldwide and win over their children's hearts in a heartbeat.
- We are continuing to innovate on our logistics & supply chain. We are happy to announce a new Logistics Center in China that will introduce extra agility and speed into distributing our product worldwide and enable much better pricing!
- We are investing into further strengthening our offering for the educational market through collaborations with child development experts, reinforced quality standards, and recent acquisitions in the space.
- And, of course, drumroll please... We are launching new toys, across numerous categories! They will be marked as "NEW" throughout the catalog. These new toys emphasize our focus on child development and Sensory Play.

With the above changes and more to come, today we are excited and more optimistic than ever about Edushape's future!

As we envision the next 40 years, we are ambitious for all of us: our business, our partners, the families that we serve, and all our employees worldwide. We are excited to continue driving innovation in child development, creating new bestselling toys, and deepening our partnerships with all of you.

We look forward to celebrating many more milestones together. Let's do it!

Danny Shirazi
CEO

New Colors & Characters

Edushape

We are committed to
help children develop
to their full potential through play.

Edushape has been a leader in child development toys since 1983.

First developed for daycares and pre-schools, our products have since won the hearts of educators and parents worldwide.

Grounded in 40 years of child development expertise, we create toys that educate, develop, and entertain. We design our toys for infants, babies, and toddlers up to 6 years old. To maximize child development benefits, we work with a team of R&D specialists, child psychologists and development experts, teachers and parents.

We are ambitious to reach and support children and parents throughout the world. No matter their geography, socioeconomic background, or any other factor.

Join us in bringing this Mission to life!

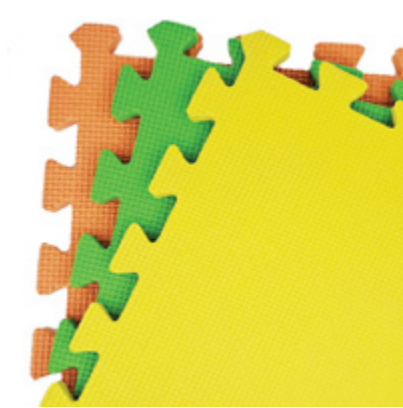

Edushape has always innovated in toys that incorporate learning into play. Over the last 40 years, we have pioneered a wide array of materials, product types, and child development benefits:

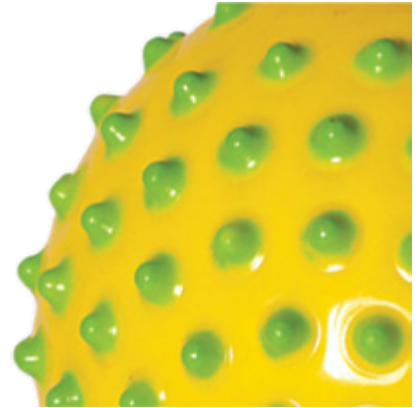

Safe play with foam

Edushape was first to introduce foam-based toys. Foam products are light and ensure safe play with no splinters, bumps, and bruises

First playmat

We introduced our Edu-Tiles Playmat to the market. It was the first playmat to combine play and learning by incorporating educational elements

The Original Sensory Ball

Edushape invented the world's first Sensory Ball and since then launched variations of the Original Sensory Ball with different colors, textures, and shapes

Bath toys

We developed a new line of bath toys, pioneering the concept of making bath a time for learning

Safe construction

Edushape created safe, soft, flexible, and easy to grip Edu-Blocks to enable safe construction play

Social Emotional Learning

We developed our Feelings Friend plush toy in collaboration with a PhD Professor at Tel Aviv University (Department of Human Development and Education)

The Original Sensory Balls by Edushape

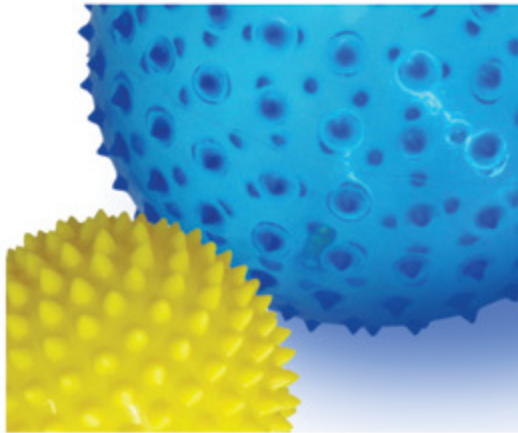

Enable 360 Degrees of Child Development

Sensory Balls are a universal child development toy. Varied textures and colors enable tactile sensory development no matter the age, varied sizes enable development of fine motor skills, and their bounciness entices babies to run around and play leading to gross motor skill enhancement.

If there is a universal child development toy, **these balls are it!**

Different sizes:

To maximize baby's motor skills development, it's best they play with a wide variety of sizes. Edushape Sensory Balls enable hours of play with our 4" and 7" balls!

Quality materials:

Edushape Sensory Balls are the highest quality Sensory Balls in the market. They are BPA Free, bouncy, easy to grip, hold their volume, and can be reinflated.

Different textures:

Edushape offers a variety of textures. Our sensory balls, multipacks, and specialty balls feature unique patterns that any baby will love exploring!

Specialty balls included:

Our team at Edushape loves Sensory Balls! And so we invented **specialty balls** that little ones will love. Our **Texture-iffic** ball has 8 tactile patterns and a uniquely soft material, **Glow in the Dark** lights up when hidden from sunlight, **Incredi-Ball** is sensitive to temperature and will reflect little one's handprint! Explore these balls and more in our Sensory Play category.

Bath

Edushape Bath toys help incorporate play and learning into bath time! Variety of materials and play uses guarantee a match for any child and family. All toys come BPA & Phthalate free and are sturdy to withstand years of water play.

High quality and sturdy:

Our bath toys are made of quality materials, BPA free, and sturdy.

Materials for any preference:

Whether looking for a toy made of light foam or sturdy plastics, Edushape has the right bath product for you. Our materials can accommodate any taste, preference, and context.

Incorporate learning:

Edushape bath toys are designed to maximize learning during play. Whether to develop baby's motor or tactile skills, teach numbers or colors, we have the right bath toy.

**NEW****525007****Float & Roll Slide**

Floating platform can be transformed into a multi-layered slide. Water spinner used to prop up the slide can also be enjoyed as a standalone toy. Oh and did we mention?! The set includes 2 balls that can be rolled from the slide directly into the shark's mouth. Make bath time more fun by incorporating learning, adventure, and a great opportunity for pretend play!

Music

We strongly believe that music is an important part of play and learning for children of all ages. Edushape has and will continue to bring the best musical toy instruments in the market.

Soothing Sounds:

We are passionate about making toys with quality clear sound that are soft and soothing to the ear.

Quality Materials:

Our musical toys are made of quality plastics, BPA free, and sturdy.

Diverse Portfolio:

Edushape has a fitting product whether the Budding Musician is a fan of percussion, soothing rain sounds, tropical maracas, or anything in between!
