YOGA & PILATES FLOORING BY DOLLAMUR

Yoga Flooring by Dollamur is quickly becoming the standard at professional studios. If you are looking for a cushioned, dry, odor-eliminating flooring surface, Dollamur is the answer! Our yoga flooring will keep your clients comfortable, allowing them to focus on balance, strength and breathing. Flooring can be installed wall-to-wall, maximizing your floor space and helps prevent slips and falls as clients step off their personal mats.

Low Impact Flooring to Reduce Joint Pain Do you suffer from joint pain? You're not alone! The Agency for Healthcare Research and Quality released a 2012 study that showed 40% of healthy weight adults reported suffering from joint pain. That number jumped to 58% for adults who are obese (defined as roughly 30 or more pounds over a healthy weight).

The injury starts out very small, so your client does not really notice the pain, but over time the damage caused by the repeated stress can be severe. It is for that reason your yoga flooring needs to provide support for your clients.
